"As data connoisseurs, our job is to extract signal from noise."

Summary

MLOps Engineer building and maintaining ML platforms for enterprise clients. Holds a Master of Science (Distinction) in Data Science and Computational Intelligence from Coventry University.

Specializes in MLOps platform engineering (AWS, Kubernetes, Kubeflow, Argo CD), Retrieval-Augmented Generation (RAG) systems with LLMs, Infrastructure as Code (Terraform, CDK, Helm), and end-to-end ML pipelines — from data acquisition to model deployment and monitoring.

In spare time enjoys blogging on his website, contributing to open source projects, participating in local technological communities, consuming books, doing graphic and video editing, exploring music production, and staying active through sports.

Skills

Programming	Python, Bash, SQL, R, Java, C++
Cloud & Platforms	AWS, Azure, GCP, Terraform, CDK, Docker, Kubernetes, Kubeflow, Helm, Argo CD, Weights & Biases, Git, REST APIs
AI & Machine Learning	MLOps, GenAI, LLMops, AI Agents, RAG, Claude, Copilot Studio, Azure AI Foundry, NLP, Statistics, Visualization
Languages	English (fluent), Polish (native), French (B1), German (A2)

Work Experience

Billennium

MLOps ENGINEER

Poland (Remote)

Feb. 2021 - Present

- Building an end-to-end cloud-native MLOps platform for drug discovery for a pharmaceutical client (published in *AI in Life Sciences*, 2026).
- Integrating Retrieval-Augmented Generation systems with Large Language Models and vector databases for various industries.
- Driving M365 Copilot & GenAI adoption by creating custom agents, prompt libraries, and delivering enablement workshops.
- Managing AWS Cloud instances and teaching MLOps subjects for internal Big Data and MLOps Academy programmes.
- Technical skills:* Python, Bash, ML, RAG, LLMops, AWS, CDK, Terraform, Docker, Kubernetes, Kubeflow, Argo CD, CI/CD, Grafana Loki, W&B.

AKKA Technologies

DATA SCIENCE CONSULTANT

Brussels, Belgium

Jan. 2019 - Aug. 2020

- Developed an interactive BI dashboard for the business department to have a clear overview of the company's workforce and market trends.
- Contributed to the development of the NLP tool, which automatically transcribes and summarises audio recordings.
- Transferred extensive data from the Excel spreadsheets to the Access database, with a generation of extra tables to forecast production.
- Consulted Alstom System Team on the current data analysis solutions on behalf of AKKA Technologies.
- Received 1-month intensive training by The AKKAdemy group in Geneva (Switzerland) on consulting in the engineering field.
- Technical skills:* Python, NLTK, Machine Learning, Selenium, SQL, D3.js, Dash, Git, Scrum.

Education

Coventry University

MSC IN DATA SCIENCE AND COMPUTATIONAL INTELLIGENCE

Coventry, United Kingdom

Sep. 2017 - Sep. 2018

- Awarded with Distinction (75% score) | Thesis: "Automated Image Analysis of Micrographs"
- Activities and Societies: course representative, Global Leaders Programme member, media presence

Coventry University

BSc (HONS) IN INFORMATION TECHNOLOGY

Coventry, United Kingdom

Sep. 2016 - Apr. 2017

- 1st Class Degree (80% score)

University of Information Technology & Management in Rzeszow

BSc (HONS) IN INFORMATION TECHNOLOGY AND ECONOMETRICS

Rzeszow, Poland

Oct. 2014 - Sep. 2017

- 1st Class Degree (4.5 GPA = 91% score) | Thesis: "Implementation of IoT (Internet of Things) in a Smart Building"
- Activities and Societies: scientific club of new programming technologies, group leader, media presence

Certificates

2021	Deep Learning Specialization , by Deeplearning.ai	Coursera
2020	Spark and Python for Big Data with PySpark , by Jose Portilla	Udemy
2020	Probability and Statistics for Business and Data Science , by Jose Portilla	Udemy
2019	Machine Learning , by Stanford University	Coursera
2019	Data Workshop Machine Learning Challenge , by DataWorkshop	DataWorkshop
2018	Python for Data Science and Machine Learning Bootcamp , by Jose Portilla	Udemy
2017	Data Science Essentials , by Microsoft	edX
2017	MTA Security Fundamentals , by Microsoft	Coventry University
2017	MTA Software Development Fundamentals C# , by Microsoft	Coventry University
2017	MTA Database Administration Fundamentals , by Microsoft	Coventry University

Projects

RAG Systems

MLOPS ENGINEER, BILLENNIUM

Confidential

Dec. 2024 - Present

- **Deploying Retrieval-Augmented Generation (RAG) systems to enhance knowledge retrieval.**
- Integrating Large Language Models (LLMs) with vector databases to enable efficient document search and summarization.
- Conducting extensive testing with comprehensive documentation for easy deployment and scalability.

MLOps Platform

MLOPS ENGINEER, BILLENNIUM

Confidential

Feb. 2021 - Present

- **Implementing and supporting the MLOps Kubeflow platform tailored for a pharmaceutical client.**
- Researching MLOps tools and frameworks, contributing to raising MLOps maturity within the organization.
- Collaborating closely with data scientists to onboard their ML models.
- *Tools:* AWS, Bash, CI/CD, Docker, Buildpacks, GitOps (Argo CD), Kubeflow, Kubernetes, Grafana Loki, LLMOps, Machine Learning, Python, RAG

Automated Image Analysis of Micrographs

MASTERS THESIS, COVENTRY UNIVERSITY

[Available on Github](#)

Sep. 2018

- **Developed automation system for image analysis process which can characterise biomedical scans rapidly.**
- Generated features, such as the distribution of grains, area fraction and interparticle distances.
- Improved currently applied methods from thirty minutes of error-prone results to one minute of high accuracy data (images, plots, tables).
- Encoded the entire workflow in a GUI to provide the highest ease of use and let the user predefine the analysis parameters, for example, to specify the desired particle segmentation.
- Tested multiple options (Python, ImageJ, MATLAB) and algorithms (auto-thresholding, machine learning) to find the best possible application for the specified user and system requirements.
- Collaborated with a client and university research department to define the requirements and get vital feedback on the system development.

Extracurricular Activities

Speaker at conferences

PRESENTER

[List of all talks](#)

Oct. 2022 - Present

- 15.05.2025 - presented "AI Chatbot Implementation in a Business: Key Processes to Address" during a local meetup in Rzeszów ("Śniadanie AI Rzeszów 4.0")
- 13.10.2022 - presented "The use of cloud computing in business and artificial intelligence" during a local conference in Rzeszów ("Carpathian Startup Fest 2022: Deep Tech")

Community Moderator

CO-FOUNDER

[Polish ML Community](#)

May 2021 - Sep. 2024

- Moderating a community with a Discord server, which gathers machine learning enthusiasts from Poland.
- Participating in regular online/offline meetups focusing on various machine learning topics.

Personal Blog Manager

CREATOR

[pawelcislo.com](#)

Sep. 2018 - Present

- Curating a public digital garden and open-notebook repository, distilling curated knowledge across engineering, software systems, productivity, and personal interests.
- Authoring articles referenced in tech newsletters and maintaining the "Recommendations for Engineers" repository (100+ GitHub stars).
- Building audience interaction and community engagement via regular newsletter campaigns and multi-channel content sharing.
- Analyzing site performance metrics to refine knowledge structure, content taxonomy, and user engagement.
